HAWAIIANS AT THE ALASKA-YUKON

THE SEATTLE EXPOSITION—HAWAII BUILDING MARKED BY AN X.

A SECTION OF THE HAWAIIAN EXHIBIT AT SEATTLE.

The First View of the Bonine Motion Pictures Is Given at Fair.

(Special Correspondence.)

SEATTLE, Wash., July 1.—Hawaii's delegation at the Alaska-Yukon-Pacific Exposition entertained last evening, informally, a party of some three hundred, made up of the directors and other officials of the Exposition, and their ladies. The affair was in the nature of a "first view" of the Bonine motion pictures, and was an unqualified success in every way. The pictures were shown in the Government biograph room, which is in the Hawaiian building, and following these, Hawaiian pineapples, bananas, mangoes, and other refreshments were served in the main building. Of the various official functions which have been held in the grounds since the big show opened, this first reception by the Hawaiian contingent was one of the most thoroughly enjoyed of any.

After the guests had assembled the pictures were shown with splendid effect, and aroused unbounded enthusiasm. It is certain that there is not another such collection of pictures on the grounds, considered either from the standpoint of uniqueness or artistic worth. Today a great many complimentary comments have been heard relative to the pictures, and there is every reason to believe that they will make a great hit with the general public when it becomes generally known that they are on exhibition.

During the intermissions between the films, Kani's boys sang, assisted by Mrs. Charles Siensen, Miss Miriam Mundon, and Miss Keala Kani, as well as later in the evening, and were much appreciated. The singers were all much affected by pictures of Prince David's funeral and their own music, "Aloha Oe," being most beautifully rendered throughout the time this picture was being shown.

After the entertainment in the biograph room another hour was spent most pleasantly at the pineapple tables, which were served by a professional caterer. Commissioner and Mrs. A. F. Knudsen, Special Agent Lloyd Childs, and the other members of the Hawaiian delegation were deluged with words of appreciation at the close of the evening, which were much more effusive than mere politeness called for.

There is one thing about the Alaska-Yukon-Pacific Exposition which is especially pleasing, and that is the spirit of friendliness and cordiality which pervades the entire official circle, including the management of all the various state and county buildings. There is no undercurrent of unpleasant rivalry or jealousy observable, such as has marred the pleasure of some of the previous great expositions of the country, but on the contrary everybody seems willing and anxious to go out of his way to be of assistance to his neighbor. This feature has been especially observable in the delightful little social affairs which are of frequent

occurrence on the grounds; and as the general acquaintanceship increases, the spirit of good will seems to be strengthened. W. J. C.

GOOD REPORT ON THE HAWAIIAN RUBBER

Mr. E. V. Wilcox, Director of the Hawaii Agricultural Experiment Station, has received the following report upon samples of rubber sent to Seigmund Robinow & Sohn of Hamburg, Germany. These samples were the product of the experimental plantings at Nahaiki. The valuation placed upon the better grades is equal to the price now being paid for the best plantation Para from Ceylon.

A report was also received in a late mail by William Williamson, President of the Hawaiian-American Rubber Co., from Poel & Arnold, rubber importers of New York, upon samples of grades No. 1 and No. 2; in which identical valuations were placed upon the respective grades.

Dear Sir: We are in receipt of your favor of 24th May and of the samples of rubber you have been good enough to send us. We have minutely examined these samples and beg to give you the following report:

No. 1.—Fine, pale, yellow biscuits, which would bring a better price, if coagulated more carefully, in any case the dark spots in the center should be avoided. Valuation, \$1.24 1-2.

No. 2.—Same biscuits, a little lighter in color and less spotted. Valuation, \$1.31.

No. 3.—Mixed scrap and prime rubber in small pieces, heated and less nervous than No. 1 and 2. Valuation, \$1.00 1-2.

No. 4 and 5.—Are heated and have suffered from its being one year old. M.G. products should be sold promptly and not allowed to get old. The resin contained in the rubber has a decaying influence.

No. 4.—Laces and biscuits of dark brown color, soft and badly heated; the quality must have been very good formerly. Valuation, \$0.90.

No. 5.—Irregular pieces, outside dirty and partly badly heated, a little bumpy. Valuation, \$0.80 1-2 to \$0.91.

No. 6.—Scrap rubber, yellow, partly darker, little bumpy. Valuation, \$0.70 to \$0.81.

Manufacturers would prefer qualities No. 1 and No. 2.

All these grades of rubber are of ready sale on our market, and we should be very glad, if you would be kind enough to recommend our firm to exporters on your islands.

Always with pleasure at your disposal, we remain, Dear Sir,

Yours truly,
(Signed) SEIGMUND ROBINOW & SOHN,
Hamburg, Germany.

The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.
